

## Eco Warriors Minutes 7.12.22

Attendees: Bonnie, Dixie, Caine, Hollie, Jemima

Apologies: Gracie (football), Katie (unwell), Tillie (unwell), Theo, Austin

### 1. Announcements

- Disposing fruit peelings every day
- Supplier for fruit still ongoing
- Welcome to Hollie from Mrs Pye's class!

### 2. Discussion

- Shared with Hollie our roles and projects so far
- Bonnie - how is the playground games around the world going with the playground ambassadors? Bonnie is going to share the posters with the ambassadors this afternoon and then give Mrs Lumsden the posters to put up on her window
- Compost fruit peelings - how is it going? Some days we remember some days we don't. Excellent suggestion from Caine if they see the bin isn't taken one day they can take it themselves to help them out
- Suggestion from Caine - roles within Eco

### 3. Actions

- We made roles within Eco that each of us will take lead of when a project arises
- We talked about what ideas we could do to support our school within our areas e.g. Energy - black out day or Water warrior could check the taps are off in each classes and children are bringing in water bottles instead of plastic one use bottles
- Miss Evans shared the Sustrans travel survey with the group. It is an audit to see how children travel to school. Warriors

mentioned we have done things on Walk to School week before. She said we will do different projects during the year to encourage children to travel by walking, scooting, cycling or parking further away and then repeat the audit at the end of the year and hopefully see more children travelling without a car to school

4. To do for next week:

- Sustrans travel survey to be completed in class by next meeting
- Think of some projects to do with your role in eco
- Bonnie to talk with playground ambassadors and all warriors to support with playing the new playground games
